## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 10, 2003 has been entered.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: Claims 14-27, 29 and 36-45 have been allowed with the reasons set forth in the previous office action. Amended claims 1-13 and 28 have been found to be allowable over the prior art. The prior art of record either alone or in combination, neither discloses nor makes obvious the combination of an exposure apparatus and corresponding method where an adjusting unit is provided for correcting at least one of aberrations of the imaging optical system so as to improve an characteristic in an overlapping exposure area formed on the photosensitive substrate, along with an illumination optical system, and a light source, as recited in the instant claims of the present application. Further, newly added claims 67-70 have been found to be allowable since the prior art does not disclose the first and second adjusting units for performing specific functions as recited. Applicant's arguments filed July 10, 2003 are deemed persuasive and incorporated herein by reference.
